EDCG 5308 Clinical Treatment: Couples, Families, and Military Populations

Credits: 3 (3-0-0)

This course is designed to focus on major marriage, couples, and family theoretical approaches, assessment, and treatment in counseling. Attention will be on theoretical development, basic skills (e.g., joining, interviewing), assessment and intermediate skills and techniques of MCF Counseling.

Prerequisites: EDCG 5314.

Restrictions: Enrollment is limited to Graduate level students.

EDCG 5309 Coun Ind, Cpls&Fam in Military

Credits: 3 (3-0-0)

This course is designed to focus on contemporary theories, assessment, and techniques in couples counseling. This course also addresses current issues (e.g., substance abuse, domestic violence, sexual dysfunction, separation, and divorce) in working with couples.

Prerequisites: EDCG 5308 and EDCG 5328.

Restrictions: * May be taken concurrently. Enrollment is limited to Graduate level students.

EDCG 5311 Theories of Counseling

Credits: 3 (3-0-0)

Study selected theories of counseling and their implications on selected personality and developmental theories. Various theorists have developed theories to explain and to account for human development and human behavior. All personality theories have counseling implications and this is an exploration of those counseling theories.

Prerequisites: Must be enrolled in EDCG program.

Restrictions: Enrollment is limited to students with a major in Clinical Mental Hlth Counseling, Counseling and Guidance, Marriage Family Counseling or Marriage Family Therapy. Enrollment is limited to Graduate level students.

EDCG 5313 Prof Orientation & Ethics

Credits: 3 (3-0-0)

This course serves as an orientation to the professional identity and ethical standards of counseling professionals. Students will address professional and ethical issues that affect the practice of counseling and related professions. Varied points of view will be presented to stimulate discussion, exploration, and reflection.

Prerequisites: EDCG 5311, EDCG 5335, and EDCG 5333.

Restrictions: Enrollment is limited to Graduate level students.

EDCG 5314 Theoretical Foundations of Individual, Couples, and Family Counseling

Credits: 3 (3-0-0)

The purpose of this course is to provide students with an introduction to counseling theories with an emphasis on systems theory. The course will provide knowledge of theories that may be utilized for working with clients who present as individuals, couples, or families.

Prerequisites: EDCG 5311, and EDCG 5333.

Restrictions: Enrollment is limited to Graduate level students.

EDCG 5316 School Counseling: Leadership and Advocacy

Credits: 3 (3-0-0)

This course explores the historical development, professional identity, ethical standards and leadership roles of the school counselor. Students will learn how to plan, implement, and evaluate a comprehensive, development guidance and counseling program designed to promote personal growth and development of all students. The legitimate role of the school counselor will be emphasized.

Prerequisites: EDCG 5333.

Restrictions: Enrollment is limited to Graduate level students.

EDCG 5317 Counseling Techniques

Credits: 3 (3-0-0)

This course is designed to combine the study of theory and philosophy of individual counseling with techniques and practices in the field. This is a "hands on" course where the student is taught through practice and observation the dynamics of providing individual counseling services. Both classroom and laboratory experiences are offered in this course.

Prerequisites: EDCG 5311; EDCG 5335; and EDCG 5342.

Corequisites: EDCG 5313

Restrictions: Enrollment is limited to Graduate level students.

EDCG 5318 Crisis Intervention

Credits: 3 (3-0-0)

This 3-hour course is designed to assist counselors in addressing clients who present in crisis. Crises come in many forms and can vary in degree and significance depending on many factors. Content will include, but is not limited to: a thorough understanding of the various types of crises; settings in which counselors will experience clients in crisis; counselor responses such as vicarious trauma; research-based approaches to clients in crises; and the importance of support systems.

Prerequisites: EDCG 5317.

Restrictions: Enrollment is limited to Graduate level students.

EDCG 5319 Systemic Interventions w Youth**Credits:** 3 (3-0-0)

This course will provide an overview of counseling interventions with children and adolescents in agency, school, and private practice. Group, individual, and systems techniques will be covered. Emphasis will be on understanding the interactions between the developmental needs of each of these age groups and counseling techniques and procedures used to deliver mental health services to each of these groups. Techniques for communicating effectively with families and working collaboratively with other professionals and with community members to promote positive change in youth will be included. Approaches for working with children impacted by military service will be covered.

Prerequisites: EDCG 5311 or EDCG 5314.**Restrictions:** Enrollment is limited to Graduate level students.**EDCG 5323 Group Counseling Techniques****Credits:** 3 (3-0-0)

This course is an introductory course for learning effective strategies, skills and techniques to resolve conflict. It is a course that will be beneficial for human service professionals which includes counselors who work in a school or community setting and whose client population includes children, adolescents and family. The course will focus on the techniques and models for conflict resolution, mediation and creative problem-solving in various conflict areas, including the family, the school, and the workplace. Techniques for effective communication, brainstorming and cooperative group decision making will be explored. Communication across cultures and bias awareness issues will be explored within the content areas. Class format will include discussion groups, reading, writing, individual projects and experiential classroom activities. It is expected that students will engage in critical thinking and engage in class activities, complete the reading and writing assignments and integrate and implement their learning.

Prerequisites: EDCG 5328.**Restrictions:** Enrollment is limited to Graduate level students.**EDCG 5325 Assessment****Credits:** 3 (3-0-0)

This course will provide students with an orientation to measurement theory, statistics associated with measurement, and the practical application of formal and informal tests. Special emphasis will be devoted to interpretation and appropriate strategies to assess individuals, couples, marriages, and families and assist in treatment planning. Assessments appropriate for use with individuals involved in world of military service will also be examined.

Prerequisites: EDCG 5333 (formerly EDCG 5329).**Restrictions:** Enrollment is limited to Graduate level students.**EDCG 5326 Spec Prob in Guidance & Couns****Credits:** 3 (3-0-0)

Course is a study of problems in designated areas approved by the university. May be repeated when the topic changes.

Prerequisites: EDCG 5328.**Restrictions:** Enrollment is limited to Graduate level students.**Repeat Status:** Course may be repeated 1 time(s).**EDCG 5327 Abnormal Human Behavior****Credits:** 3 (3-0-0)

This course is an in-depth look at the varieties of psychopathology, its etiology, classification, and treatment. The course reviews the history and treatment of mental illness over the years with special attention to the various classification schemes and systems as they have evolved. The emphasis will be to give the student skills to recognize the nature of the abnormal behavior and to determine what services, if any, the counselor might be able to provide. Proper referral services, methods, and procedures will be explored. Students will explore the practical use of the Diagnostic Statistical Manual of Mental Disorders.

Prerequisites: EDCG 5311 or EDCG 5314; EDCG 5335; EDCG 5342.**Restrictions:** Enrollment is limited to Graduate level students.**EDCG 5328 Group Counseling Techniques****Credits:** 3 (3-0-0)

This course is designed to provide the student with an understanding of group dynamics, theories, and techniques. Special emphasis on developmental stages of the group process, leadership roles, and various responsibilities associated with forming and conducting groups. Types of groups and common group settings will be examined.

Prerequisites: EDCG 5313, EDCG 5317, and EDCG 5327.**Restrictions:** Enrollment is limited to Graduate level students.**EDCG 5331 Conflict Resolution****Credits:** 3 (3-0-0)

This course is an introductory course for learning effective strategies, skills, and techniques to resolve conflict. It is a course that will be beneficial for human service professional which includes counselors who work in a school or community setting and whose client population includes children, adolescents, and family. The course will focus on the techniques and models for conflict resolution, mediation and creative problem-solving in various conflict areas, including the family, the school, and the workplace. Techniques for effective communication, brainstorming, and cooperative group decision making will be explored. Communicating across cultures and bias awareness issues will be explored within the content areas. Class format will include discussion groups, reading, writing, individual projects, and experiential classroom activities. It is expected that students will engage in critical thinking and engage in class activities, complete the reading and writing assignments and integrate and implement their learning.

Prerequisites: EDCG 5328.**Restrictions:** Enrollment is limited to Graduate level students.

EDCG 5332 Substance Use/Process Addict**Credits:** 3 (3-0-0)

This 3-credit hour course is designed to provide counselor trainees with a thorough understanding of the nature of use, abuse and dependency/addiction related to alcohol and other legal and illegal substances with special emphasis on the brain, and its impact on behavior. In addition, counselor trainees will understand process addictions such as those related to eating, gambling, and sex.
